I Love My X’s

Welcome to ‘I Love My X’s’, an innovative art exhibition that traces the boundaries between the virtual and the real. Blurring the lines between the threads which have woven together, this exhibition invites you to participate in a narrative that displays digital creativity and artistic innovation. The exhibition is curated by Margot (Niti) Cassapu, and it is an exploration of the relationship between the digital and the physical world.

‘I Love My X’s’ is a testament to the power and potential of technology. The exhibition presents a selection of works that showcase the possibilities of digital art and design. The pieces on display range from interactive installations to multimedia projections, offering a unique experience that invites viewers to engage with the artworks in new and exciting ways.

“Digital art is not just about creating visually appealing images; it’s about exploring the boundaries of technology and giving voice to the innovative ideas that are shaping our world. ‘I Love My X’s’ is a celebration of the power of digital art to inspire and empower,” said Curator Margot (Niti) Cassapu.

The exhibition is part of a broader initiative to promote digital art and design in the region. ‘I Love My X’s’ is open to the public from November 1st to December 31st, and it will be held at the ‘X’ Gallery located in Tel Aviv. Visitors are encouraged to come and experience the exhibition for themselves and to share their thoughts and opinions about the works on display.

For more information about ‘I Love My X’s’ or to schedule a visit to the exhibition, please contact the gallery at (03) 413-5000 or visit their website at www.x-gallery.com.

Thank you for contributing to the success of this event. We look forward to seeing you at ‘I Love My X’s’.

Sincerely,

Curator, Margot (Niti) Cassapu
